

PRODUCT SPECIFICATION

| | |
|-------------------------|--|
| ■ Wifi | Wifi-802.11 B/G/N |
| ■ Bluetooth | BT 4.1 |
| ■ Audio Output | 2W Speaker Output |
| ■ CPU | Quad-core A7 1.0GHz |
| ■ Durability | IP67 |
| ■ OS | Android 5.1.1 |
| ■ Display | 2.0" LCD 240*320 TFT 65K True Color Display |
| ■ Platform | Qualcomm MSM 8909 |
| ■ GSM/WCDMA/FDD Bands | GSM: B2/B3/B5/B8 |
| | WCDMA: B1/B2/B4/B5/B8 |
| | TDD-LTE: 38/40 |
| | FDD-LTE: (E) 1/2/3/4/7/8/20/28 |
| | FDD-LTE: (U) 2/4/5/7/12/13/17/25/26 |
| ■ Memory | 4GB eMMC + 1GB LPDDR3 |
| ■ External Interface | 13 PINS (USB, Earphone, PTT, I/O*4) |
| ■ Operating Temperature | -30 ~ 60 C |
| ■ Operating Voltage | 3.7V DC (Rated) |
| ■ GPS+GLONASS | Support |
| ■ MIC Impedance | 2.2 K Ohm |
| ■ USB | Support |
| ■ Language | Multi-Language |
| ■ Battery | Li-ion Battery DC 3.7V 3600 mAh |
| ■ Weight | 231.9g (battery and antenna included) |
| ■ Dimension | 133*52*30 mm (Knob and antenna not included) |

Connect Anywhere

Meeting Your Critical Mission

V760

Empowered by Voizenet System

- Seamless communication over LTE/WCDMA/GSM and Wifi
- 2.0" Large-size color LCD display
- Superior digital voice
- MIL-STD-801G and IP67 Durability
- Support WIFI, Bluetooth and GPS

Wide Coverage with Cellular/ Wifi Network

Design

V760 is a cost effective Android based PoC radio that empowered by PTT-over-cellular technology that is working on LTE/WCDMA cellular or WIFI network. It allows seamless communications without boundary limitation.

Audio Quality

With a build-in 2W output power speaker, V760 ensures clear and superior voice communication under noisy environments.

Built-in Bluetooth

Bluetooth connectivity supports wireless Bluetooth accessories

Long Battery Life

High capacity Li-ion Battery 4600mAh provide long standby time. Fast charging through USB port or single charger

Reliable and Durable

High reliability and durability with IP67 and MIL-STD-810G allows the radio to be used in harzous environment.

Remote Configuration

Unlike traditional PMR radio, no programming tool is needed for radio configuration as everything can be configured remotely without intervention of the radio usages. Save a significant of maintenance time

GPS /Glonass

V760 supports GPS and AGPS provides accurate location information and send location information periodically to dispatcher for precise fleet management.

Dedicated SOS Button

A dedicated orange SOS button for easy trigger attention to the dispatcher center during emergency situation.

ACCESSORIES LIST

Single Charger

Power Adaptor

Li-ion Battery 3600 mAh

Earpieces
(Transparent Tube, Earbud, Swivel)

Belt Clip

Heavy Duty Noise
Cancellation Headset

Speacker Microphone

Bone Conduction Headset

Bluetooth Earpieces
with PTT Button

Throat Mic Ear Pieces

APPLICATION

Security

Government

Mall and Hotel

Public Utilities
